Prologue

School term 1944 - 45 ---- a world at war ----
brute force, destruction, and power politics are
the order of the day -- students and instructors
working after school in war industries ---- some
of us in the armed forces ---- the entire nation
geared to war while planning for peace -- we, at
Macomber working and studying with an eye toward
a useful place in the postwar world ---- we, the
new force of culture -- each of us preparing for
a constructive occupation, thereby bettering our-
selves, our community, our country ---- we, the
force of progress in a chaotic universe -- each
in his own way using his brain and hand to forge
a more perfect environment ---- on the following
pages you will see a year of our activity -- the
sugar, the salt, the pepper, and the vinegar of
a year with young America --- the school year at
Macomber with us, the force of progress --- with
us, the force of culture!

Faculty Administration

Adminstration

E. L. BOWSHER

Our superintendent of Toledo public schools, Mr. E. L. Bowsher, is a man of great foresight. He predicts a more urgent need for vocational education in the postwar world, since 85 per cent of those gainfully employed, during this period of war production are engaged in manual work.

Coming to Toledo from Columbus, where he was the State Director of Education, from 1935 to 1937, we find Mr. Bowsher a man with a world of experience at the job of directing a school system.

In view of his untiring services in promoting education in our city, and, his interest in vocational education, a lifetime membership in the American Vocational Association was presented to him in December, 1942, when the association held its annual convention in Toledo.

We feel certain that Toledo's Postwar public school problems, including the present school developments and the education of returning servicemen, will be capably handled by our superintendent.

Brainpower

..... Principal

F. M. DANNENFELSER

"If you want an abundance of friends, be friendly; like attracts like; --- do things for others ---", so claims our principal, Mr. Dannenfels. We, who have worked with and for him, realize that he can, and, does practice what he preaches.

The faculty and some of his industrial friends have displayed their respect for Mr. Dannenfels by enrolling him as a life member of the American Vocational Association.

His leadership ability is proven in the fact that he was the first president of the Office Managers' Association. He has also taken a leading part in the development of the Foremen's Club and the Toledo Personnel Managers' Association.

Every graduate of Macomber is proud of Mr. Dannenfels's liberal theory that vocational education courses in shop and related technical subjects should all be studied from a scientific viewpoint, and, should include social studies to develop our human relations, which are so important in our modern times.

Senior Class Officers

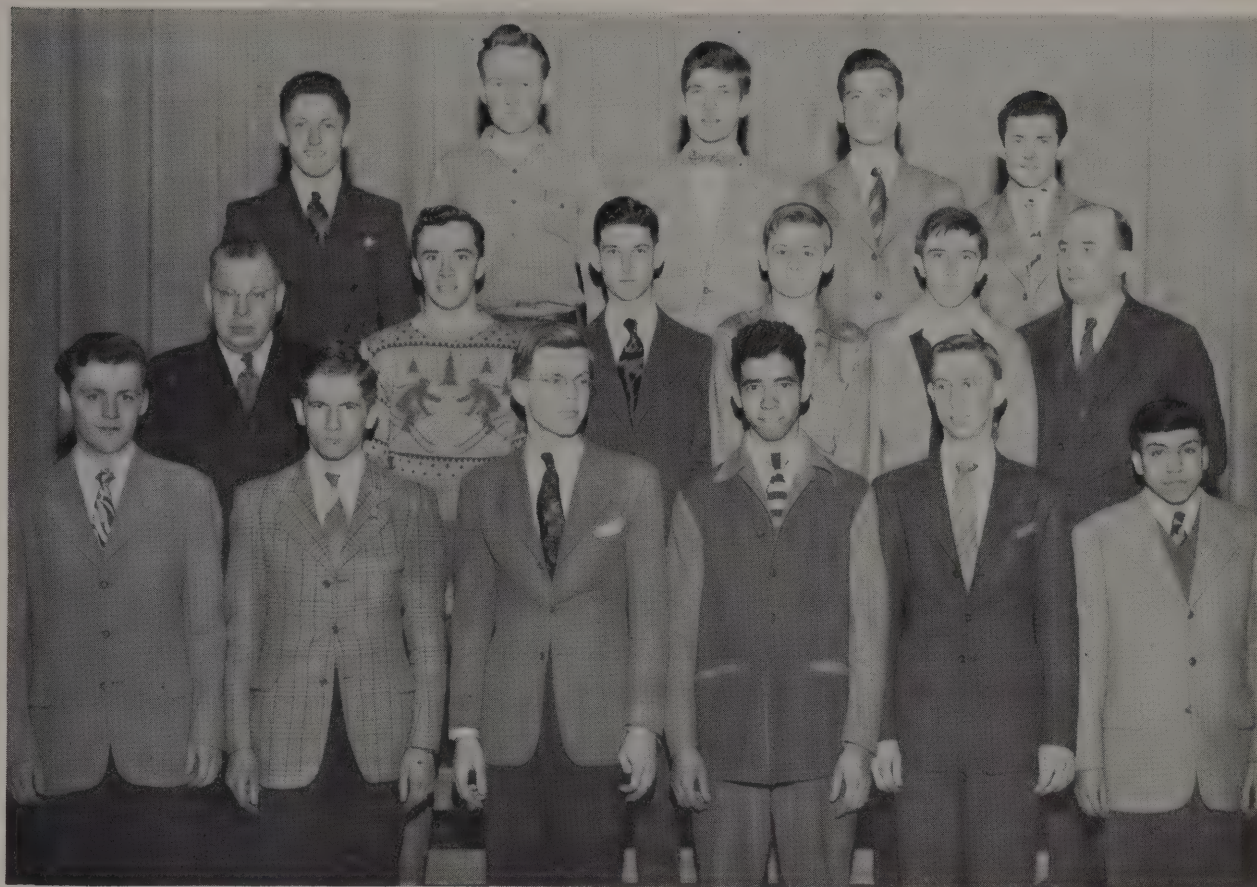

This year the Senior class was fortunate to obtain a fine group of boys. They all have the initiative and the "know how" about our world of industry to forge ahead and to get things done as apprentices in their particular trades.

The class officers are as follows: Daniel Sutkus, President, Daniel Zurawski, Vice-President; Donald Soncrant, Secretary; and Robert Jacobs, Treasurer.

The job of these capable boys was not an easy one. They worked hard to make the Senior activities a success. The Senior Skate, the Senior Prom, and the Graduation Exercises are activities which were planned by these officers and their advisors, Mr. Baumker and Mr. Hiss.

Much in praise and thanks go to these swell fellows! The members of the Senior class sincerely appreciate the wonderful job they have done and extend to them loads of good wishes in the many years to come.

SENIOR BOARD OF CONTROL

The Senior Board consists of a Senior Representative from each shop in the school. The boy who represents each shop is elected by those in each particular shop, which makes a total of about fifteen representatives on the board.

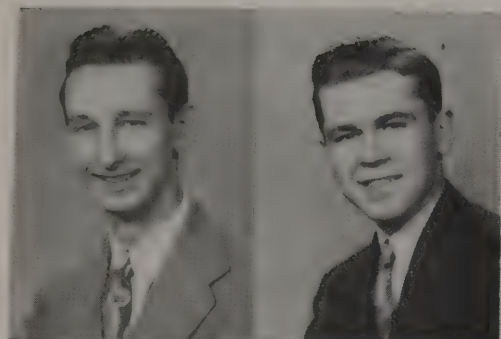

The board is directed by the Senior class officers. The President, or Vice - President in case of the Presidents absence, presides over the meetings.

This board meets about once every two weeks to discuss things and vote on new business. It might be said that this is the Senior governing body in the school.

The students in the school know the boys on the board, and they, therefore, respect the decisions which are made there. This Senior Board gives students a chance to think and make decisions as they will need that experience in later life.

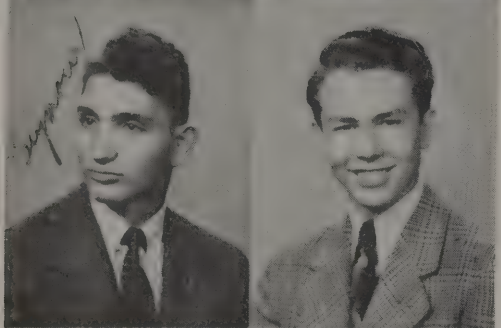

These boys, individually make no decisions but as a team, they do wonders in helping to make the wheels of school life run smoothly and effectively.

INTO THE LION'S DEN

BRAINS DEPT.

Student Council

The 1944-45 Student Council has initiated and participated in a number of important school activities.

In September the Student Council sponsored an assembly to acquaint the student body with the extra curricular activities of the school.

An outstanding activity was the course of dancing lessons taught by Miss Atwell of Libbey; Whitney students graciously attended the lessons. A number of dances were held after the basketball game.

On April 5 the fourth annual Basketball Banquet was sponsored by the Council. Coach Anderson of Bowling Green State University gave an inspiring talk, and a moview was shown. The Council presented a trophy to Calvin Christensen whom the team chose as the most valuable player.

As usual, the representatives helped greatly in promoting the sale of war stamps and bonds, and, the Carnival.

Names of former students who are now in service are being collected so that an honor roll may be prepared.

The officers of the Council are: Wayne Parker, president; Walter LaVrar, vice-president; Eugene Borkowski and Ray Busick, secretary and treasurer; Mr. Vander, advisor.

Band

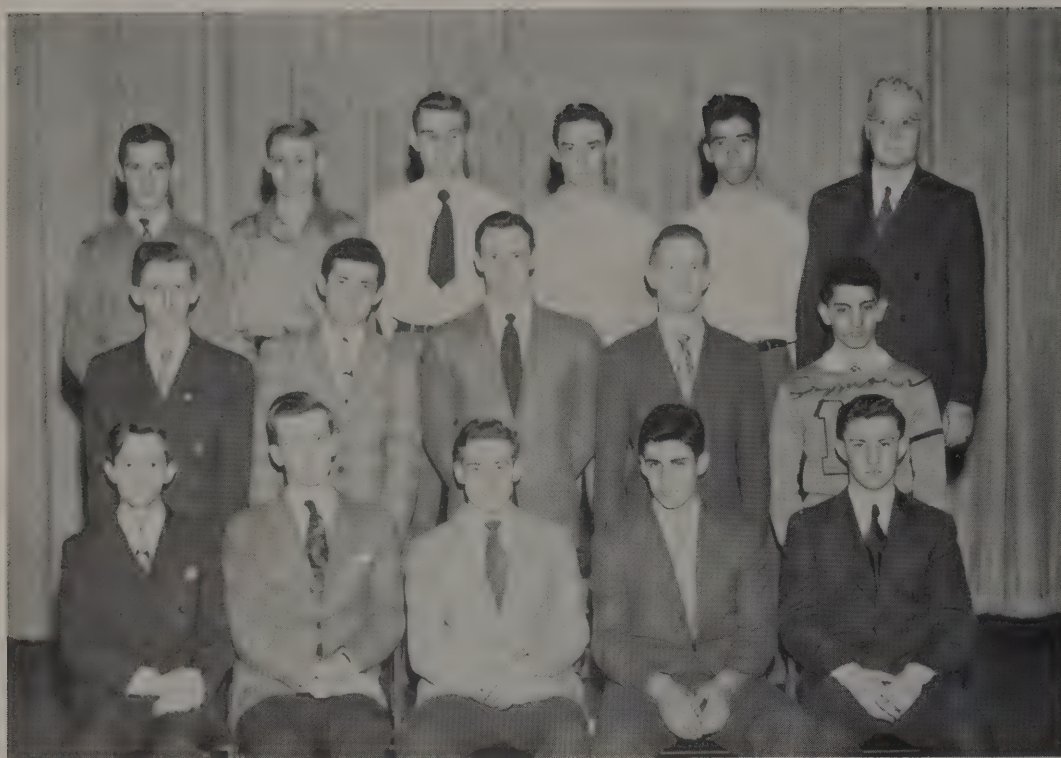

Yes, Macomber has a band. It is rather hard to believe, as our band has made very few appearances in the last year. This does not, however, reflect on the band's ability. Under the direction of Mr. McClure the band has advanced from purely martial numbers to the more difficult and finer realm of the classics.

Working with inexperienced material, who have been trained under a different instructor, Mr. McClure had before him a rather difficult task. He is succeeding in building a first rate musical organization. The band is capable of doing a wonderful job in all kinds of events and concerts. However, this has not been proved to the student.

Rather than present a poorly tutored, inexperienced band, the instructor has chosen to groom the organization to perfection before putting it before the school for inspection. That is why we have not seen or heard the band very often this year

Music is an essential in the cultural life of any institution, and Macomber's band is truly representative of this fact. Their hard work and untiring efforts will bear fruit in the later life of each member of the band and Macomber.

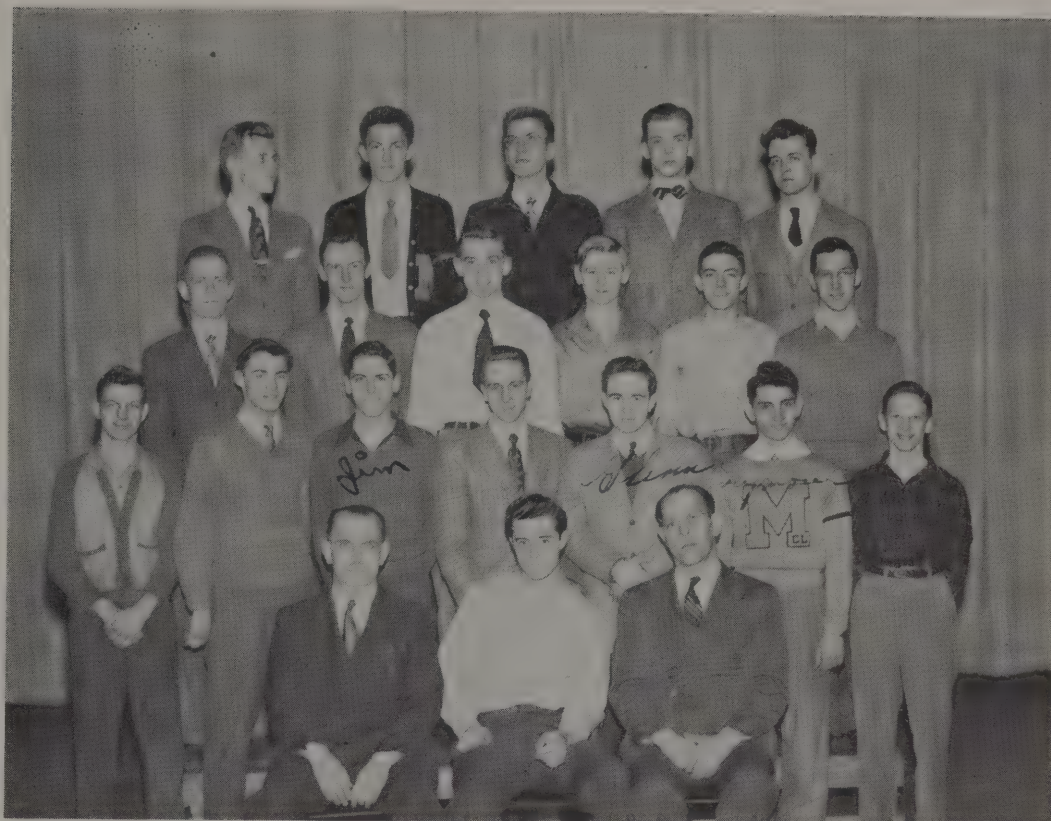

Craftsman

Macomber Vocational High School's tradesmen's mottoes, "Skill Pays", "Right and on Time", applicable to every job performed in the school or on the job. - Wisdom of the ages gleaned from Philosophers and Craftsmen of the Past --- Thomas Carlyle, "Two men I honour, and no third. First the toil-worn craftsman that with earth-made implement laboriously conquers the earth and makes her man's ... A second man I honour and still more highly; Him who is seen toiling for the spiritually indispensable; not daily bread, but the bread of life" - Inspiration from the Poets - Breton Braley,

"The best verse hasn't been rhymed yet,
The best house hasn't been planned,
The highest peak hasn't been climbed yet,
The mightiest rivers aren't spanned;
Don't worry and fret, faint hearted,
The chances have just begun
For the best jobs haven't been started,
The best work hasn't been done".

Hi - Crier

After several years without publication we once more find the Hi-Crier functioning as our student edited and printed school paper. In the face of very discouraging conditions the 1944 - 45 Staff has been putting out a paper on a regular once a month basis. Working with a Staff and group of reporters without any previous experience on the Hi-Crier, Mr. Rynder, our Faculty Advisor, was able to start publication in the fall. No sooner had the paper started to function under its excellent Editor-in-Chief, Dick Kelmer, then the Army Air Corps called; we lost our very capable Editor after just one issue.

The assistant Editor, Charles Marr, took over and has been doing a commendable job since Dick left us. Jerry Oswald was elected as Assistant Editor and will automatically become Editor next year.

The most important thing about our revived Hi-Crier is the fact that it is being mailed to all Macomber men now in any of the Armed Services - within the limits of the addresses available. A constant stream of letters from the old grads reach the Staff from every corner of the earth. All of them seem very glad to have this tie with home and the old School; hence the real difficulties of publication right now during the War are well worth surmounting to give our own Serviceman something worthwhile.

Hi - Y

An important contribution to the social life of Macomber, our Hi-Y, is one of the finest and most active in the city. Under the able guidance of Ronald Wagner, President, the club has grown and become a thriving organization. With a nucleus of some six former members, Wagner was faced with the prospect of putting the Hi-Y on its feet. With the aid of Donald Soncrant and other seniors, success was guaranteed.

The Hi-Y has contributed to the school's social life several times in the past year. Some of the outstanding affairs were: the Hi-Y Skates and the Christmas and Easter services. Along with the social activities, the Hi-Y also has a sports program; the Hi-Y basketball team has participated in several games with the teams of other schools.

With the purpose of spreading and promoting Christian endeavor throughout the community, the Hi-Y offers the students of Macomber an opportunity for both social and cultural advancement. Mr. Vander, of the Social Science Department, has served the club as advisor, and his efforts have been an important factor in the club's success.

Engineers

Say there! What do you know about the Engineering Society? Have you ever really found out what the club is for and how it operates. The Macomber Engineering Society, a member of the Science Clubs of America, is primarily interested in science and its industrial application. The members also active in the promotion of extracurricular activities.

Pete LaVrar, president of the club, has busied himself the entire year with the promotion of the clubs social and academic activities. The annual engineers' skate is an event which all Macomberites look forward to with enthusiasm. Of no lesser interest is the annual Hi-Y vs. Engineers' basketball game.

Mr. Schweinhagen, advisor of the club, and a teacher of mathematics, has aided the officers of the club in their continued efforts to make the club interesting and popular with the members. Club activities have rather limited because of the war. In years past, one of the most interesting and popular activities of the Society was the plant inspection tour. These tours gave the club members an insight into industry. Because of war restrictions, however, it has been necessary to discontinue them.

The club and its officers have, however, in spite of handicaps forged ahead in school social life. The Engineering Society holds a prominent place in the social life of Macomber.

Regional Finalists

Varsity Basketball

On March 2, Macomber's Craftsmen ended a successful season with a record of 15 won and 6 lost. They went on to win the District Championship and were Regional Finalists, thus adding two new Trophies to our display case.

This season's high scorer for 21 games was Cal Christenson with 203 points. Following were Henry Navarro, 130 points, and Dan Sutkus 105 points. The playing of Mel Schultz could be counted on in the pinches, and he came through several times, including the gaining of points in an overtime game with Central. Ernie Kulwicki and Dick Hintz played excellent ball toward the end of the season, and their fine play figured in the winning of many games. Bert Mears, Dick Yonkee, Bob Poplawski, and Jack Rohrbacker were always there when help was needed.

Of this year's team, five will graduate and five will remain to form the nucleus of next year's quintet. Graduates will be: Dan Sutkus, Cal Christenson, Bob Poplawski, Dick Yonkee and Mel Schultz.

Although the winners of 15 games, the Black and Gold lost two very close games to Scott, two to Woodward, one slow starter to Central, and one to the Bowling Green University "B" team.

Macomber entered the district Tournament, slated not to go very far, but the Craftsmen broke the slate. On March 5, the Macs took Clay, 56 to 25. March 9 brought about the biggest upset of the season. Woodward's Polar Bears ran into the Craftsmen. The Bears were ceded first in the District and were favored to win the championship. The Crafts went into the game with the idea that Macomber was going to Bowling Green, and, when playing had ended, the score stood 26 to 21, Macomber. On March 10, Macomber took the count of Libbey's Cowboys and won the right to represent Northwestern Ohio at B. G. At Bowling Green, the Craftsmen defeated Wapakoneta and then bowed to Bellevue in a hotly contested game, 28 to 26.

Big guns of the Mac-men for the tournament was Cal Christenson with 44 points. Close behind were Dan Sutkus and Hank Navarro, with 35 and 33 respectively.

Macomber wishes its Varsity grads the best of luck.

Baseball

Baseball was revived as a varsity sport at Macomber after a lapse of two years. A squad of fifty candidates answered the call of Coach Clyde Harr. The squad has gradually been cut to fifteen boys who are varsity calibre. The pitching staff is made up of Jack Rohrbacker, Ernie Kulwicki, Ed Marzec, and Bob Jacksy. The catchers are Dick Gehring and Ernie Kulwicki. The infield is Ronald Zakrewski first base Ed Marzec, second, Hank Navarro, short stop, Jack Rohrbacker, third base, and Walter Riker and Ernie Kulwicki as utility infielders. Art Kubacki, Dick Yonkee, George Panos, Tom Fromme, Richard Hintz, and Steve Crouch form a reliable outfield.

Coach Harr predicts that Macomber will have the best team in the Toledo City High School League this season. The league is made up of Central, Scott, Waite, and Macomber. Macomber has a schedule of seventeen games this season which includes games with Holland, Monclova, Clay, Whitmer, Lake, Weston, Haskins, and Monroe as well as the city schools. The record to date is wins over Holland, Monclova, Lake, Weston, Haskins, and Clay. Macomber's 1945 baseball team is out to win the city and district baseball trophies. Some of the highlights to date have been the pitching of Rohrbacker who pitched a no-hit, no-run game against Monclova, the versatility of Kulwicki, the fine play of Yonkee, Navarro, Marzec, Zakrewski, Gehring, and Kubacki.

Reserve Basketball

The Macomber lightweights had a very successful season in winning fourteen out of nineteen games. In the city league their record was nine won and three lost, good for a three-way tie for first place with Central and Woodward. On the whole, the brand of ball played showed great promise for future Varsity material. The big guns of the team were George Panos, 157 points, and, Bob Schultz, 115 points.

Due to the fact that we have no freshmen, we are allowed to enter sophomores in the freshman league. Our boys gave a fine showing of themselves by finishing the season in possession of first place, with a record of twelve won and two lost. High scorer was Julius Hager with 93 points.

Bowling

The American League team ended the season in a tie for fourth place with Central High. The team consisted of Mel Bielawski, Dan Kozak, Bob Jacksy, Julius Kiss, and Glen Stansbury (Capt.). In the first round the American Leaguers won 7 and lost 14. They picked up in the second round with 18 wins and 3 losses.

The National League team finished in second place. They won the roll-off games from the Libbey American League team. The Nats were Steve Gall (Capt.), Norm Gansmiller, Jim Rygalski, Steve Timar, and Bob Wisniewski.

Golf

The 1944 team was the best at Macomber from the point of city standings and the Northwestern Ohio district. However, at the district, our boys came through by winning the team championship. Our own Tommy Szymanski won the low medal score.

This gave our school the right to represent the district at Columbus in the finals. Those making the trip were: Ollie Kay (who placed third in individual scoring), Tom Szymanski, Don Forquer and Danny Slawinski. They placed seventh in the state.

With three of these four back and several more sophomores and juniors, it is hoped that they will do as well if not much better than last year. In addition to these mentioned above, the following boys received letters: Geo. Leow, Richard Brzynski, and Leo Kajfasz.

Our coach Mr. Romberger, who had the honor of coaching the 1940 DeVilbiss Team to a state championship, will again handle our team.

Epilogue

June 8, 1945 Macomber Days are a memory to its Seniors. These Sixteenth Street wolves will howl no more. The girls at Whitney will pine and become lonesome; another group equally as good will entertain them next year. Our friend Fred will no longer voice his opinion to you so plainly. Captain Earl will never more stop us on our headlong dash to the cafeteria, where we so hurriedly stuffed our food down in eagerness to get to the next class. The carnival was swell as usual; we sold a lot of tickets; soon we'll have a football team. The basketball, baseball and golf teams had a very fine season. The student body supported everything very well; The season pass, the class pictures, the yearbook, announcements, name cards, then the basketball banquet, the prom, and finally, the senior banquet, and graduation. But it was worth it. These things have been the salt, pepper and vinegar of our high school days. What we have gained at Macomber is in our heads --- no one can ever detract from our store of knowledge and our many fond remembrances.

School Calendar

1944-45

- September 12 - **School Opens**
29 - "Know Your School" Assembly
- October 4 - Movie - "Guadalcanal Diary"
18 - Engineers' Roast
